HIGH MOWING SCHOOL
Wilton - New Hampshire

1943 - 1963

High Mowing School, with its rambling 1763 farm buildings and its "160 acres, more or less," has been a boarding school for boys and girls the last twenty years. Fifty-four pupils came that first year and now there are ninety, a full complement. The school is run on the Waldorf Method, started by Dr. Rudolf Steiner in 1919, so it is even an older venture and well proven both here and in Europe. Dr. Steiner has said: "Our highest endeavor must be to develop free human beings, who are able of themselves to impart purpose and direction to their lives."

The school is well founded on granite, for which we thank our State, and is building for the future.

WARRANT FOR ANNUAL TOWN MEETING

The State of New Hampshire

To the inhabitants of the Town of Wilton in the
County of Hillsborough and the State of
New Hampshire qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton on Tuesday the 12th day of March next, at twelve o'clock noon to choose all necessary town officers (polls will not close before six P.M.) and at 7:30 P. M. at the School Auditorium to act upon the following subjects:

1. To hear the reports of Town Officers, Agents, and Committees and pass any vote relating thereto.

2. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

3. To see what action the Town will take in regard to real estate taken over by the Town for non-payment of taxes.

4. To see if the Town will vote to accept the budget as prepared by the Budget Committee or make any alterations relating thereto.

5. To see if the Town will authorize the Tax Collector to appoint a deputy or deputies, under the provisions of Chapter 41, Section 38, of the Revised Statutes Annotated of New Hampshire, or take any action relating thereto.

6. To see if the Town will vote to authorize the Tax Collector to charge an additional amount of twenty cents on each Poll Tax not paid by September first, for use of the Town as provided by statute.

7. To see if the Town will vote to transfer from unencumbered surplus the sum of \$8000.00 to the Capital Reserve Fund or take any action relating thereto.

8. To see if the Town will vote to purchase a Loader for the Highway Department at a cost not to exceed \$17,000.00 of which \$10,000.00 will be taken from the Capital Reserve Fund and apply \$1000.00 as voted at the 1960 Town Meeting for a surplus Payloader and a sum not to exceed \$6000.00 by the issuance of serial notes and bonds in accordance with the terms of Chapter 33, New Hampshire Revised Statutes Annotated and any amendment thereto. Said Serial notes and bonds to be obtained at such rates of interest and terms of payment thereof as may be in the best interest of the Town or take any action relating thereto.

9. To see if the Town will vote to adopt the revised rules and regulations drawn up by the Cemetery Committee concerning the sale of lots and use of Public Cemeteries in Wilton as set forth in the Town Report* or take any action relating thereto.

10. To see what action the Town will take in regard to the placement of a memorial in honor of the Korean Veterans or take any action relating thereto.

11. To see if the Town will permit the use of the Town Hall to the School District for school purposes.

12. To see if the Town will vote for the installation of street lights between the residence of A. A. Doherty and the four corners at West Wilton or take any action relating thereto.

* Printed on Page 47

13. To see what sums of money the Town will raise to defray expenses for the ensuing year.

14. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 25th day of February 1963.

JOHN W. COWIE,
RAYMOND F. BATCHELDER,
CHARLES O. McGETTIGAN, JR.,

WILTON HIGHWAY REPORT – 1962

Winter Maintenance for 1962 was what I would call average. In January there was eight inches of snow, but these were sleet and rain storms which used up a large amount of salt and sand. During February the largest amount of snow of the winter fell – about 43 inches, with 10 inches in March, 4 inches in April and 10 inches in December, making a total of 75 inches which is some under the yearly average.

Summer Maintenance again this year was about average, consisting of road grading, cutting brush, cleaning out waterways and general maintenance of the village streets. During July the T.R.A. work was done. The money this year being used to complete the road started in 1961 in Davisville, from Burton Highway to the home of Douglas Chapman, by the old reservoir, a distance of .8 mile. This road was gravelled and tarred. After completion, a little money was left and was used with two day's work on the Marden Road in West Wilton which we hope to finish this coming season.

In the month of August the resurfacing work was done. Roads done this year were: Mason Road, .8 mile; Maple Street, .6 mile; Intervale Street, .8 mile; Potter Road, .6 mile; Searles Road, .2 mile; Burton Highway, 1 mile; Abbot Hill Road, .7 mile; Marden Road, .1 mile; making a total of 4.8 miles. We also resurfaced several driveways during September and did most of the brush cutting.

The first of October the retaining wall of the Sheldrick Bridge in West Wilton fell in, taking about a week to repair. During the first two weeks of November we tried to get the dirt roads in shape for the winter months and snow fences were put out.

In regards to new equipment, the Highway Department is asking for a new tractor loader with snow plow attachment; as the department must have equip-

ment of this type for all seasons of the year. It will be used for loading gravel and sand during the summer; plowing and cleaning up of snow in the village during the winter months; and will take the place of the I. D. 9 Tractor which is 15 years old and unreliable.

At this time I want to express my sincere thanks to my employees for their fine cooperation during the past year and all townspeople who have assisted the Highway Department in any way.

LAWRENCE A. GIBBONS,
Highway Agent.

**Rules and Regulations for
Laurel Hill, including new additions, known as
Denny Section, South Yard and Vale End Cemeteries.**

1. Price of Lots

- A. All lots will be sold subject to Perpetual Care.
- B. Price of ½ lot will be \$150.00.
- C. Price of full lot will be \$250.00.
- D. Any lot with 3 or less burials will be considered a ½ lot.

E. \$50.00 of purchase price to be used by the town for general development and care of cemeteries.

2. Monuments and Maintenance

A. No person shall make any alterations, erect any monuments, markers or plant shrubs without approval and consent of the Cemetery Committee.

B. All mowing and lot maintenance will be done by the cemetery employees only. An exception to this rule may be granted by the Cemetery Committee if they deem it advisable.

3. Annual Care

A. Lots sold previously without perpetual care may continue to operate on an annual care basis being billed by the Town of Wilton.

B. Present cost is \$3.00 a ½ lot and \$5.00 for a full lot. This price is subject to change as costs increase.

C. No grave will be opened in an existing lot unless all annual care bills are up to date.

D. Any new lot must be paid for in advance of any burial.

4. Denny Section

A. Elevation of lots to be the same as that of surrounding lawns and roadways.

B. Burials to be made in vault (or some everlasting materials) or by cremation.

C. Markers and monuments shall be erected only Flush with Graded Lawns.

D. Planting of shrubs or trees only upon permission of the Cemetery Committee.

Drawn up and approved by the Cemetery Committee, February 18, 1963.

JOHN W. COWIE, Chairman
RAYMOND F. BATCHELDER
CHARLES O. McGETTIGAN, JR.

REPORT OF AUDITORS

We have completed our audit of the accounts of the various town officers for the year ending December 31, 1962 and find them to be correct and in order.

The records of the Tax Collector, Treasurer, Town Clerk, Judge of the Municipal Court, Trustees of the Trust Funds, Selectmen, Water Department and the Wilton Public Library were checked. The Town Officers' Bonds were also examined and found to be in compliance with the law.

The uncollected accounts of the Tax Collector and the Water Department were verified by sending individual notices to each debtor, this being the usual accepted practice.

We wish to extend our thanks to the town officers for the cooperation received during the audit. Again our thanks go to Mrs. Elizabeth French for the help and assistance she so freely gives each year.

ROY E. CLAIRE,
STUART S. DRAPER,

Auditors.

Town of Wilton, N. H., February 26, 1963.

Shot chasing deer	6
Strays shot for town	11

This past year we have a lot of trouble with dogs chasing deer, in most cases dogs with no collars or license tags. This year more drastic measures will be taken to eliminate dogs with no collars or license tags.

The law states all dogs over three months old must have collars and license tags.

Respectfully submitted,

ROBERT O. WIGGIN,

Dog Officer.

REPORT OF WILTON FIRE DEPARTMENT - 1962

During 1962, we had 51 calls; 41 bell alarms; 10 still alarms.

Building Fires	14
Brush Fires	3
Chimney Fires	4
Car Fire	1
Dump Fires	5
False Alarm	1
Flooded Oil Burner	3
Grass Fires	8
Rubbish Fires	3
Aid to Milford	4
Aid to Amherst	3

Aid to Lyndeboro	1
Aid to Temple	1
	<hr/>
	51
Mutual Aid from Milford	3
Mutual Aid from Lyndeboro	1

700 feet of 2½-inch hose was purchased in 1962. We had fourteen building fires during 1962. All were discovered before they had gained much headway, all except the Wilton Diner. The Diner was about gone when reported, and has been rebuilt, and all other buildings have been repaired. Damages to all was about \$11,000, and that amount of insurance has been paid.

We have a Ford pumper that is twenty-seven years old, and we feel that it is time it should be replaced.

Our proposed budget for 1963 is \$6,300 for maintenance for the coming year.

I wish to thank the Police Dept. for their help.

I wish to thank the assistant chiefs and members of the Fire Dept. for their cooperation this past year.

WILFRID B. BERUBE, Chief
FRANKLIN EDWARDS, Asst. Chief
WILLIAM CLEAVES, Asst. Chief

Preventing Forest Fires Is Our Responsibility

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsi-

bility could be placed cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control — pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to instill in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had 3 fires. We burned $\frac{1}{4}$ acre.
Permits issued, 63.

WILFRID BERUBE,
Forest Fire Warden.

WINTHROP H. HANNAFORD,
District Fire Chief.

REPORT OF WATER COMMISSIONERS

There was the usual maintenance expense of replacing pipes due to their being filled with rust.

Pumps have been installed in eight houses at Abbot Hill Acres so the water supply is adequate now.

Samples of water have been sent to the State Health Dept. and have been satisfactory.

More of the Departments surplus has been invested and new equipment purchased. The latter being a locator, thawing machine and paving breaker.

ROY W. SMITH,
FRANK E. KIMBALL,
LYNN W. POTTER,

Water Commissioners.

REPORT OF PUBLIC HEALTH NURSE

For the year 1962 the Public Health Nurse made 399 calls on citizens in the Town of Wilton as follows:

- 346 State Welfare calls (bed baths, foot care, insulin injections)
- 1 War Veteran — 1 call (no charge)
- 31 Bed baths
- 2 Tuberculosis follow-up cases
- 4 Crippled children follow-up cases
- 4 Foot care
- 7 Vitamin injections
- 3 Insulin injections
- 1 Treatment

Also there were:

- 7 Conferences with State P. H. Nurse
- 2 Tuberculosis interchange follow-ups
- 1 Conference with P. H. Officer
- 24 Telephone advice
- 5 Clinics for polio, vaccinations and D.W.T.'s

Respectfully submitted,

SHIRLIE J. FRYE, R.N.,
Public Health Nurse.

THE WILTON YOUTH CENTER

The program of the Wilton Youth Center grew in many directions during 1962. With much work volunteered by the committee and a good deal of cooperation from everyone, the program was able to reach young people and to afford more activities than in past years.

In February we presented Walt Disney's movie **Ten Who Dared**. The Goss Park area officially opened July 5th under the capable leadership of Richard Rudis assisted by Nancy Godley. Along with Nancy Parker and Donna Stevens they gave swimming lessons to 175 children and adults. Despite generally poor weather conditions, our largest crowds far surpassed those of last year. There were swim meets with Milford and New Ipswich; and the team attended the state meet at Claremont. The season finale was a water show for Wilton and Lyndeboro.

This fall we offered a series of Saturday Folk Dance lessons under the direction of Mr. Gene Gowing for third graders and older. We are again fortunate to have Miss Karen Lane teaching skating on the Mill Pond to a large and eager group of young skaters. For the first time, the Youth Center Christmas Dance was open to everyone rather than just to students; there was an orchestra for dancing and a special recognition of the soccer team.

We look ahead to a bright summer. Buzz Rudis will be back in charge of a day long program starting with arts and crafts and playground activities in the morning and swimming in the afternoon. This means an increase in staff with plans for two Water Safety Instructors and two assistants, plus Buzz. We continue to put aside money for some badly needed tennis courts and may be able to start this project this year.

Respectfully submitted,

CAROLYN G. RAWLS,

Chairman.

BUILDING INSPECTOR'S REPORT

Number of Permits issued	28
New Construction	13
Alterations	15

LEROY C. ROBBINS

Code for Building and Sanitation in Town of Wilton, N. H.

Article 1

PREAMBLE

The following code is proposed for adoption to promote the health, safety, morals, general welfare and civic rights of the inhabitants of the incorporated Town of Wilton, New Hampshire, by providing safety from fire, adequate areas between buildings to be erected, various rights of way, by preserving the rural charm now attached to our Town, the promotion of good civic design and arrangements, now therefore these articles are hereby enacted by the voters of the Town of Wilton, New Hampshire, in official Town Meeting convened.

Article II — Buildings

New building construction, major alternations to the outside of existing buildings, or any different use from which existing buildings are now used, the placement of trailers or mobile homes will require a permit from the Building Inspector.

A permit shall not be required for repairing any existing building where the purpose for which the building is used is not changed. A permit shall not be required for the construction of small camps for logging, hunting, maple sugar, fishing and like purposes which may not by their nature and use, conform to the requirements of this ordinance.

To protect the rights of all town property owners the Building Inspector reserves the right to deny a building permit for the erection for any building or group of buildings or the placement of trailers or mobilehomes which in their opinion, would be detrimental to, or lower the valuation of existing adjoining properties. This ordinance shall not at this time affect any existing buildings built or placed previous to this ordinance except that at such time as any new additions or

structural changes thereto shall take place, a permit will be required.

A building under 500 square feet in area for a one story frame house will not be erected or remodeled for the primary purpose of a permanent living abode for a family of three or more persons.

A building of any size will not be erected for the purpose of a permanent living abode without fulfilling the following requirements:

(A) Proper siding (no tar paper exposed)

(B) Electric wiring shall conform to the National Board of Underwriters Electrical Code.

(C) Chimney Construction. No chimney shall be built, erected, or altered below the roof unless containing a tile or brick lining and with iron clean-out door at or near its base, and shall extend at least three feet above the roof. No chimney shall be built, erected, or altered below the roof having wood or other combustible materials within one inch of the chimney and no chimney shall have its base resting upon any floor or beam of combustible material.

(D) Smoke pipes. No smoke pipes shall be installed or erected so as to be within twelve inches of any combustible floor or ceiling, unless amply protected with non-combustible material. No smoke pipes shall be installed or erected which passes into or through partitions or walls of combustible material, except when guarded with a double collar of metal with air space of at least five inches of brick or other non-combustible material between the pipe and the combustible material.

Article III — Sanitation

(A) Cesspool, septic tank, or sewer disposal area shall hereinafter be constructed or maintained no less than 75 feet from the edge of a public water body or from a dwelling other than that to which it is appurtenant, or as required by the State Board of Health.

(B) Except for existing Town and private sewer systems, no waste waters or sewage shall hereinafter be permitted to run free into a public water body or be discharged in any way that may be offensive or detrimental to the health of others. All such waste shall be conveyed away underground through use of an accepted sanitary system or in such a way that it will not be offensive or detrimental to health.

(C) All sanitary systems shall hereinafter be constructed

and maintained in accordance with standards set and enforced by the New Hampshire State Department of Health and by the New Hampshire Water Pollution Commission.

Article IV — Amendments

This Ordinance may be amended by a majority vote of any legal town meeting when such amendment is published in the warrant calling for the meeting, and when such amendment has received a public hearing, which hearing has been advertised and given a legal fifteen day notice.

Article V — Penalties

Any person violating any provision of this ordinance or failing or neglecting or refusing to obey any lawful order or direction of a person authorized to investigate and enforce the provisions of this ordinance, shall be guilty of a misdemeanor and shall be subject to a fine of not more than \$10.00 and each day's violation shall be a separate offense.

SYNOPSIS OF ANNUAL TOWN MEETING

March 13, 1962

The polls were opened at the Town Hall at 12 noon by the moderator, Raymond F. Batchelder. Ballot clerks were Mrs. Mildred Gibbons, Mrs. Ethel Milne, Mrs. Dorothy Atwood, and Mrs. Constance Paro. Selectmen Charles O. McGettigan Jr. moved that the polls be closed at 6 o'clock; this was seconded and passed by a voice vote.

A total of 231 ballots were cast, with the following results:

Selectmen for Three Years:

Charles O. McGettigan Jr.	217
Walter Frye	2
Lawrence Putnam	1
Dr. Edward Sheris	1
James Sheldon	1

For Town Treasurer:

Samuel G. Proctor	223
-------------------	-----

For Town Clerk:

Kenneth R. Dunham	225
Barbara L. Putnam	1

For Highway Agent:

Lawrence A. Gibbons	216
James Tuttle	3
Frank MacWilliams	1
Charles Mayer Jr.	1
Constance Webb	1

Water Commissioner:

Lynn W. Potter	218
Guy Holt	1
Roy Smith	1
Elmer Draper	1

For Trustee of the Trust Funds for Three Years:

Barbara L. Putnam	223
-------------------	-----

For Parks and Playgrounds Commissioner:

Arthur D. Elkins	210
Roy Smith	1

Shall the provisions of Chapter 171-A
of the Revised Laws relative to play-
ing games of Beano be adopted in this
town?

Yes 111 No 90

The Meeting was continued at the High School auditorium at 7:30 p. m. The following officers were appointed:

Auditor for two years: Roy Claire.

Trustee of the Gregg Free Library: Roy Smith
Surveyors of masonry, stone work, and brick work: The Old Board.

Corders of wood: The Old Board.

Surveyors of Lumber: The Old Board.

Article 1. The reports of town officers, agents, and committees were accepted as printed in the town report, with two corrections to the budget as printed on page 16.

Article 2. The selectmen were authorized to borrow money in anticipation of taxes.

Article 3. The question of what action the town will take in regard to real estate taken over by the town for non-payment of taxes was left to the selectmen.

Article 4. The town voted to accept the budget as prepared by the budget committee.

Article 5. The tax collector was authorized to appoint a deputy or deputies.

Article 6. The tax collector was authorized to charge an additional \$.20 on each poll tax not paid by September 1, for use of the town as provided by statute.

Article 7. It was voted to discontinue the Board of Fire Commissioners.

Article 8. After the lengthiest discussion of the meeting, the building code as drawn up and approved by the planning board was adopted on a standing vote, 56 to 47, with the following ammendments:

Article IV, regarding junk yards, was deleted.

The following article was added: "Penalty. Any person violating any provision of this ordinance or failing or neglecting or refusing to obey any lawful order or direction of a person authorized to investigate and enforce the provisions of this ordinance, shall be guilty of a misdemeanor and shall be subject to a fine of not more than \$10.00 and each day's violation shall be a separate offense."

Wherever the code mentions the Board of Selectmen the wording was changed to read Building Inspector.

Article 9 \$4,500.00 was taken from the Post War Fund for the purchase of a new highway truck.

Article 10. The provisions of chapter 252 of the New Hampshire Revised Statutes annotated, 1955, and any amendments thereto, were adopted, with three sewer commisioners to be elected at the next annual meeting, one for three years, one for two years, and one for one year.

Article 11. It was voted to rescind the vote taken at the town meeting in March, 1961, to celebrate the 200th anniversary of incorporation of the town in 1962, and it was voted to celebrate the same in 1964, along with Old Home Day.

Article 12. No action was necessary on this article, as appropriations for the ensuing year had already been taken care of with the adoption of the budget under article 4.

Article 13. Nothing was acted upon under this article, except the motion to adjourn at 8:56 p. m.

The budget as adopted is as follows:

Current Maintenance Expenses:

General Government:

Town officers' salaries	\$ 3,725 00
Town officers' expenses	3,850 00

ROLAND P. BROCHU,
Sexton.

WILTON SCHOOL STUDY COMMITTEE REPORT

At the request of the Wilton School Board, a group of citizens met with the Board, Superintendent Sargent, and Principal Shaw in the Superintendent's office on January 3, 1963. The school census enrollment statistics which were presented at the meeting by the Superintendent indicated that for the school year starting September, 1963, it would be necessary to provide a minimum of two additional teaching stations to house adequately the school population for the next two years. Before the conclusion of the meeting, the group had organized itself into a Study Committee with Mrs. Winston Center, Chairman, charged with the responsibility of making a recommendation to the Board prior to the 1963 School District Meeting.

The Committee reviewed the subject matter and recommendations in the "Preliminary Report of the Interim Commission on Education" and concluded that in good judgment it would be unwise to seek a long range solution to the Wilton School housing problem until the State Legislature had received and acted on the findings and recommendations contained in this report on state-wide education matters. It was therefore determined that at this time additional housing should be provided at a minimum cost and could be of a temporary nature.

The recommendations of the School Needs Study Committee as published in the Town Report of 1959 with regard to possible permanent building additions were reviewed and tabled due to the considerable investment required in each instance.

A careful survey was made of the possibility of excavating under the gymnasium, but when soundings of the foundation walls were taken, it was found to be an impractical consideration as the foundation walls were only six feet deep and would not provide op-

portunity for construction of rooms with sufficient ceiling height to be habitable.

Dual sessions were considered and a complete and detailed study of the subject was made by the Superintendent. A summary of his report is made a part hereof, as the Committee thought the data should be available for consideration now and in the future.

Considering all factors, the best level on which to operate dual sessions seems to be the upper elementary grades, 4, 5 and 6. Since the Senior High School needs two classrooms, it would mean that four classes at the upper elementary level utilize two classrooms. The regular school day would operate from about 7:45 until 2:30 in the afternoon and the dual session classes would run from 7:45 to 12:15 and from 12:30 until 4:45. The cost of this program would involve an additional expenditure of as much as \$7,000 to provide for the additional transportation necessary at noontime and late in the afternoon. The length of the school day for the dual session children would be $4\frac{1}{2}$ hours rather than the required $5\frac{1}{4}$. It is felt such an arrangement would be approved on a temporary basis.

It is probably quite apparent that there are several disadvantages to operating dual session classes, however, in spite of the disadvantages, it certainly is worthy of consideration as a solution to the Wilton school space problem.

The tuitioning of 11th and 12th grade high school students to high schools in neighboring towns was considered. However, upon learning other high schools in the area were experiencing similar housing problems, this consideration was rejected at this time.

The discontinuance of acceptance of tuition students was considered but rejected at this time. Removal would not reduce the number of teaching stations required or reduce the number of teachers required because the membership of the tuition group is so broadly spread throughout the Junior and Senior

High School. Also, it was felt that such a decision involve long-range planning for the school.

Temporary conversions within the existing school buildings, such as the stage and cafeteria, to classrooms, were considered but rejected as impractical.

The following possibilities for temporary housing outside the school property were considered:

Legion Hall

Congregational Church Parish House

Episcopal Church

Town Hall

Stanton's Hall

Odd Fellows Hall

Library

Roger Tuttle property

It was found that the Legion Hall, Stanton's Hall, and the Congregational Parish House would not be available for school use. The available space in the Library was considered to be inadequate due to its size. The Odd Fellows Hall was rejected due to the considerable cost of renovation that might be required as well as its remote location from the school. Roger Tuttle's property was rejected because the investment that would be required would be of a size that would place the consideration in the category of permanent long-range planning.

The options remaining for recommendation, in the Committee's opinion, are the remodeling of the Episcopal Church, the use of the Town Hall, or operating in the present facilities under a partial dual session arrangement. The Episcopal Church and the Town Hall have been inspected and approved by the State Fire Marshal in the event that remodeling be carried out in accordance with his recommendations. The cost of remodeling the Town Hall or the Church will be reduced by 30% with funds available from State building aid.

The use of the Town Hall Banquet Room and Civil

Defense Room for two classrooms to be used by the upper elementary grades, 5 and 6, is the first recommendation of this Committee. This involves an estimated expenditure of approximately \$3,500 on town property to improve the lighting and heating and toilet facilities for these two rooms. Proximity to the playground and main school buildings is such that the group of students and teachers located at the Town Hall would not be excluded from the major activities going on at the central school. The school authorities also felt that students, buses, and traffic could be regulated so that no undue difficulties would generate from use of this location for students at the upper elementary grade level.

The use of the Town Hall for two classrooms at this time offers the bonus possibility of gaining a third small classroom should the emergency arise prior to long-range solution of the School housing problem. The Selectmen have offered to vacate temporarily their office if the space is required by the School. The Selectmen's office would move to some other municipally owned building. Also the use of the Town Hall by the School should not increase noticeably the operating cost of the building because it is already being heated and provided with custodial services.

The Committee was also of the opinion that as soon as the School could abandon the use of the Town Hall rooms, the improvements made in the building for the use of the School would create facilities at the Town Hall that might make the building more attractive for rental at a future time. This would help to carry the overhead of this building.

The Episcopal Church, due to its location, was considered highly desirable; but since its use would involve the expenditure of approximately \$8,000 on a rented facility, it is recommended as the Committee's second choice. The detailed description of the reno-

vation of this building as suggested by Mr. Draper and Mr. Robbins is recounted below.

This plan is proposed for the remodeling of the wood-constructed Episcopal Church Building, which has a basement area of about 25 feet by 35 feet. However, the fire marshal would want the furnace area blocked off with a wall, if any of this basement area is to be used for toilet area. The first floor has, as you enter, a hall, 5 feet wide and 8 feet deep, with a small closet and stairs to the second floor to the right, and a room 8 feet by 9 feet to the left of this hall, which might be converted into a boys' and girls' toilet room, if only one flush and one lavatory for each sex is okayed by the State Health Department. Beyond this hall is a room 25' 3" x 27' 5" (680 sq. ft., more or less), with four posts equally spaced to hold up the floor above (these may have to be moved). 800 sq. ft. is the State required minimum, but 680 sq. ft. might be overlooked for a short period of time. The second floor area, 25' 3" x 35' 3", with an area of 7' x 9' taken out for stairs would give a classroom area of 800 sq. ft., thus meeting the State minimum for classroom area. This room has a 4" step up 10' wide at the west end that may have to be taken down to make the floor one level. There is no ceiling, just rafters showing. The cost of remodeling to meet state requirements, included would be partitions, ceilings, stair repairs, railings, wiring, lights, plumbing, fire escape from two floors and basement, panic hardware, miscellaneous hardware, doors, etc., would seem to be about \$7,500 if the present heating plant is adequate, if not, another \$500 to \$1,000 could be spent on this.

The adoption of dual sessions is recommended for consideration if the Board finds the first two recommendations unsatisfactory. However, the inconvenience to the families whose children would be involved

in the dual sessions would be considerable, and the additional expenditure of \$14,000 over a two-year period for transportation are considered by this Committee to be deterrent factors.

The Committee would like to thank Superintendent Sargent, Principal Shaw, and Mr. Watts for attending the Committee meetings and for their aid and assistance in helping the Committee to obtain information.

Respectfully submitted,

MRS. WINSTON L. CENTER, Chairman

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Wilton qualified to vote in district affairs:

You are hereby notified to meet at the High School Auditorium in said district on the ninth day of March 1963, at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for salaries of school district officials and agents, and for payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will vote to authorize the School Board to raise a sum of money not to exceed \$10,000 by the issuance of Serial Notes or Bonds in the name of and on the credit of the district in accordance with Chapter 33 N. H. R.S.A., subject to any state or federal grants available in the future and applicable to this article, for the purpose of providing, equipping and maintaining two classrooms, said Serial Notes or Bonds to be obtained on such rates or terms as may be deemed advisable by the School Board and paid off over a period of not over 10 years, or take any action relating thereto.

10. To see if the district will vote to raise and appropriate a sum of money not to exceed \$500 for the purpose of paying off the first year's interest on the aforesaid Notes or Bonds, or take any action relating thereto.

11. To see if the district will vote to authorize the School Board to enter into a long term exclusive contract, not to exceed twenty years, with the Lyndeborough School District for Junior and Senior High School tuition pupils, except those living in North Lyndeborough and those attending other Junior or Senior High Schools, beginning with the school year 1963-64. The basis for the tuition charge would be Wilton's estimated average per pupil cost based on the year preceding the year of the contract, plus a capital outlay assessment within the framework of the State Laws of New Hampshire namely R.S.A. 194:27, or take any action relating thereto.

12. To transact any other business that may legally come before the meeting.

Given under our hands at said Wilton this 13th day of February 1963.

RAYMOND A. LaPONSIE,
NANCY T. WHITING,
EARL W. WATTS,
School Board.

A true copy of Warrant — Attest:

RAYMOND A. LaPONSIE,
NANCY T. WHITING,
EARL W. WATTS,
School Board.

WILTON SCHOOL BOARD'S ESTIMATED BUDGET

School Board's Statement of amounts required to support public schools and meet other statutory obligations of the district for the fiscal year beginning July 1, 1963 and comparative analysis of expenditures.

SUPERINTENDENT'S REPORT

To the School Board and citizens of Wilton, I respectfully submit my fifth annual report as your Superintendent of Schools.

Staff and Instruction

School opened in the fall with just one basic change in staff brought about by the retirement of Miss Mabel Shea. The passing away of Miss Ethelyn Edwards also required a change in the leadership of the Music Department.

At the high school level a difficulty which has plagued the Wilton High School a good many years continues. Approximately half of the teachers on the staff were new to Wilton schools and most were limited in their experience. This problem of teacher turnover at the secondary level is probably the most critical problem of the high school. The teacher is the key to a good educational program. Inexperienced teachers generally cannot be expected to perform as those with good experience. Until this problem is solved, the high school program will always leave something to be desired. It is true that Wilton can use additional space. It is true that Wilton can use additional equipment. It is true that Wilton requires an expanded program and additional facilities. No matter how important these may be, however, these needs are secondary to the provision of a sound, experienced, continuing and effective staff. The School Board has been made aware of the urgency of this need and is making efforts to solve problems in this area.

Two important programs in the elementary instruction area have been initiated this year which, it is believed, will considerably strengthen the educational program of the school. The quality of instruction in reading, it is felt, is being considerably improved by the initiation of a very highly phonetic system of teaching reading. The Spalding System is being taught in grades

one through six. It requires children to learn all the ways in which common sounds of the English language can be written. The children learn these sounds and then spell words using the sound spellings and the rules for the spellings. Finally, the system requires that the words be written as they are sounded and spelled, adding a third phase to the overall program of this particular system. This system is being used with considerable success in practically all of the schools of the Union. The continued success which the teachers are experiencing in working with this program, even though on a rather experimental basis, is very encouraging. It is expected that the word solving power developed by this program will result in much higher levels of reading than can be expected through the use of traditional reading programs. Parents of first grade children must understand that reading during the first half of the year will not proceed as rapidly as it would under a regular type program. Parents may very well expect, however, that by the end of the year youngsters will be reading at a level beyond that which is usually achieved in the first grade.

The second academic area being given considerable emphasis is in mathematics. The books being used serve as a guide in grades one and two and provide a more modern approach to the entire subject of mathematics. This program will eventually be expanded to all grades. During the coming year it is expected that material at the third and fourth grade levels will be available. The purpose of the modern math program is to tie together mathematics from grades one through twelve. This means that at the lower grade levels basic concepts, which are within the ability level of youngsters in these grades, will be presented in a simple fashion. Ultimately at the high school level many of the basic concepts once first presented there, now, will already have been presented in

a simple manner, thus making possible at the high school level even higher levels of mathematical understanding, college bound youngsters will thus be better prepared. Non-college students who usually do not spend much of their high school time studying math will have a better general mathematical background. This will undoubtedly better prepare all youth for the kind of world they are going to face in the future.

Building and Grounds

Buildings and grounds are in satisfactory condition. The regular maintenance and renovation program continues as in the past. This program has meant that the **old building** especially is maintained in a fashion which makes it usable. Additional classroom space will be definitely needed for the coming year. A more complete discussion of this matter will be found in this report and also in a report which it is expected will be made available to all voters at the time of the district meeting.

Finance

The total amount required to meet the School Board's Budget shows an increase of approximately \$13,600 over the amount that was budgeted for the present school year. Most of this increase lies in the area of Teachers' Salaries. This increase is \$12,320. It should be noted that a good part of this increase is brought about by the need for two additional teachers, one a teacher of Junior High School Math and Science and a second to teach Guidance and handle some teaching area, probably Social Studies. Guidance, and some other requirements are urged upon us by the minimum standards of the State Department of Education. About \$8500 of this increase is thus accounted for. The remaining \$4,000 provides increases for the teachers of the present staff. The remainder of the budget remains more or less in line with the budget of the present year. Some areas may seem to show a

marked increase or decrease, however. it should also be noted that a change in the school accounting system has been required by the State. This changeover from one system to another accounts for most of the large changes. Basically, the budget is unchanged. Due to the fact that a balance is being anticipated at the end of the fiscal year, and additional income is expected under Tuitions, the total assessment amounts to \$171,206.06 which is an increase of approximately \$7500 over the assessment for the present school year.

The Future

Shortly after the census figures were tabulated in early November it became evident that Wilton was going to be faced with space problems in the coming September. It also became evident that the space problem in Wilton was going to be a continuing one. These facts led the Board to appoint a School Study Committee to assist the Board in solving these two critical problems, the provision of space for the coming school year, and provision of adequate school facilities for the children of Wilton in the years to come.

Census figures show that approximately 70 children will be entering the seventh grade next fall and approximately 30 seniors will have left. This creates a need immediately for two classrooms since all high school space is being utilized. The reduction in enrollment at the elementary level is not sufficient to justify the reduction of the teaching staff at that level.

The long term projections were developed by checking on the enrollments at the elementary and secondary levels back fifteen years to 1947. Total school enrollments of the past were as follows:

1947 — 338, 1952 — 392, 1957 — 454, 1962 — 550.

A projection of these figures from the past into the future indicates the following estimated enrollments that appear just ahead:

1967 — 615, 1972 — 685, 1977 — 760.

What do these figures mean? It is believed that they point out that the present facilities and grounds cannot possibly adequately handle the numbers of children that are going to be in attendance in Wilton in fifteen years. It seems advisable to look to another location or consolidation to provide adequate facilities to meet needs in ten, fifteen or twenty years.

In December the State Legislature published its interim report on education in New Hampshire. This report further complicated the problems of the citizens of Wilton. This report indirectly advised Wilton to look at its problem very carefully and proceed with caution until the Legislature definitely determines how the interim report is actually going to be effected. If it is accepted and put into effect as presently printed **no children would be educated in Wilton above the sixth grade.** If this is so, there certainly is no need to spend money for buildings which may very well lie idle.

The Study Committee working within a very short space of time but with unusual intensity, is planning to present to the District a solution that requires a minimum expenditure of funds for Wilton at this time but none the less provides acceptable housing for children during the coming school year. This type of recommendation by the committee may seem not to be in the best interests of education and it is not ideal, however, it does appear to be the most sensible course of action for Wilton at this time. Once this immediate problem is solved, the Committee can then devote its energies to long range space problems for Wilton children.

Conclusion

I want to thank the elementary staff under the leadership of Miss Florence Rideout for their continued efforts and achievement in properly educating the children of Wilton. Compliments are especially in

order for Mr. Carl Shaw, the high school principal, for welding together the high school staff into an effective unit. The School Lunch staff has continued to operate effectively in spite of unusual hardships caused by the reduction of the cafeteria space made available to them. Mrs. Stevens, school secretary, and Mrs. Pollock, school nurse, continue to carry out their functions in an exemplary manner. The Wilton School Board is to be complimented for their understanding of the problems under which we have been forced to operate during this present year, and accept the solutions with patience and understanding. A special vote of thanks is in order for the Study Committee rapidly organized but quickly tangling with the difficult problems of the school. Any success which is achieved in the areas of their study they can claim full credit. As in the past the citizens of the town have generally exercised a most cooperative and helpful attitude and been very understanding of the problems of our school and the solutions required. By all parties working understandingly together, a satisfactory school program is offered with hope for better things in the future.

Respectfully submitted,

KENNETH A. SARGENT,
Superintendent of Schools.

REPORT OF THE HIGH SCHOOL PRINCIPAL

The role of the high school in American society is becoming increasingly more important, and youngsters who attain a high school education find a variety of opportunities open to them.

Graduates of Wilton High School are entering all walks of life, and the Class of 1962 is no exception. The following table shows what members of the Class of 1962 are doing:

Number	Per Cent of Total	Present Status
7	24%	College
6	20%	Two-year College
12	42%	Employed
2	7%	Housewives
2	7%	Armed Services

Over the last five years there has been a rising trend in respect to Wilton High School graduates seeking further training beyond high school at various colleges, business schools, and vocational schools. At the present time nearly seventy percent of the Class of 1963 are seeking admission to institutions of higher learning which range from one-year programs to those of five years or more.

Today, youngsters seeking additional education have to make an early decision as to what careers they are going to pursue and what institutions they are going to attend. Such decisions have to be made during the junior year or very early in the senior year of high school, as most colleges and vocational schools fill their first year classes early. In making a decision which will determine the course of a person's life, the role of guidance becomes very important. Testing, the analyzing of test results, and personal interviews, together with scheduling speakers for group guidance such as representatives from the armed forces, are all necessary to aid seniors in making future plans.

Actually guidance (both individual and group) should begin at the seventh grade level and continue through the twelfth grade. Guidance given by a teacher who has been specifically trained in this field is a tremendous asset to any high school, and the students at Wilton High School would definitely benefit by the addition of guidance.

At the present time I am handling the guidance program, which is quite limited; and as the enrollment is rising sharply, more and more time must be given to orient students properly at the high school level. To give you a rough picture of what has happened to Wilton High School in respect to growth since 1945, I have prepared the following table:

Year	Enrollment (Grades 7-12)
1945	130
1955	205
1957	210
1960	247
1962	271
1963 (anticipated)	310

With the enrollment rising to approximately 310 students in 1963, the problem of space is paramount. The graduating class numbering thirty-one students occupies one homeroom, and the entering seventh grade class numbering possibly sixty-nine students will need two homerooms. In addition music classes and a few other classes are meeting on the stage in the auditorium. These classes plus physical education classes pose a serious scheduling problem in regard to the gymnasium. To ease the situation, space should be provided for a music area and an additional classroom. I sincerely believe some serious study should be given to this problem of space, and not only for the coming year but in several years to come, for the

school population, in all probability, will continue to grow as it has over the past eighteen years.

Although enrollment has increased, the testing program has not only been maintained but is now more extensive. Eighth graders are given the Metropolitan Achievement Tests and the SRA Primary Mental Ability Test. In addition, they will participate in the testing program recently developed by the State Department of Education. Ninth and tenth graders may take the National Education Development Test with tenth graders also taking part in a state testing program similar to the one in the eighth grade. Juniors can take the Preliminary Scholastic Aptitude Test which is similar to the Scholastic Aptitude Test (College Entrance Examination) taken during the senior year. In the spring Juniors will take the National Merit Scholarship Test and those who qualify in this test may receive a part or full college scholarship.

From the results of tests taken recently it is evident that students at Wilton High School are competing favorably with students from other schools. However, as in the case of many other high schools, Wilton has found that many students are not reading as well as they should. Realizing that no longer can the high school shirk the responsibility of doing some work with reading, the English teachers are now using the SRA Reading Laboratory which is designed to increase both reading speed and comprehension. Through the SRA program, many students will be strengthened in several academic areas and will become more efficient in completing various class assignments.

As in the case of reading, the programs of math and science have been the subject of much discussion among educators. To give Wilton students better training in math, a new program was instituted three years ago, and students in this program take algebra one in the eighth grade, geometry in the ninth grade,

algebra two in the tenth grade, advanced math one in the eleventh grade, and advanced math two in the twelfth grade. Under this program students can receive five years of math including advanced algebra and trigonometry. The present juniors who are in the college technical course are now in the fourth year of this program and will be the first class to receive the benefit of the five-year sequence in math.

In the science field, students in the college course can receive four years of science, including general science, biology, chemistry and physics. For general course students, three years of science are offered and the program is composed of general science, biology and physical science. Therefore, the science courses of the high school combined with the two years of science at the junior high level give all students a well-rounded science program.

It has been my pleasure to report to the citizens of Wilton in my first year as your high school principal and I wish to take this opportunity to thank the Wilton School Board, Mr. Kenneth Sargent, Superintendent of Schools, Mrs. Elna D. Stevens, the school secretary, the faculty, the student body, the parents, and interested citizens for their support and interest in the educational program of the school.

Respectfully submitted,

CARL V. SHAW,
Principal.
